

BOIL WATER RESCIND NOTICE

April 24, 2026

Due to a water main line break causing the pressure in the water distribution system to drop below 20 psi, the Texas Commission on Environmental Quality (TCEQ) required the Shamrock Municipal Water System PWS #2420001 to issue a boil water notice on April 20, 2026. This notice was to inform our customers that due to this loss of pressure in the water distribution system all water from our system must be boiled prior to consumption.

The Shamrock Municipal Water system has taken the necessary corrective actions to restore adequate pressure and proper disinfectant levels. Bacteriological testing has been completed and the test results confirmed that the water no longer requires boiling as of April 24, 2026.

Should you have any questions regarding this rescinding of the boil water notice, please contact Shamrock City Hall at 806-256-3281.
